# STEAMBOAT WILLIE

MICKEY

WHITEPAPER

M

VISION

Steamboat Willie sailed into the Public Domain on Jan 1st, 2024, igniting a wave of creative projects. We are excited to be part of this movement.

This is exactly what we are focusing on: Open Source projects and Public Domain material. We aim to be the top coin for Open Source and Public Domain communities.

We believe that there are thousands of open source projects that can be utilized and we want to support all those projects as well as actively contribute to open source development, kick off Hackathons and find ways to generate utility through open sourcing.

ROADMAP
